

Newbury Hall

International High School

Newbury Hall is an expanding international boarding school which specialises in coaching students intensively and gets students of all levels into good UK Universities.

Newbury is a lively, prosperous market town in the south of England. Although it has lots of history, it is also a thriving modern commercial centre with many points of interest. Newbury is at the centre of Southern England, 60 minutes from London and 45 minutes from Heathrow Airport.

Routes to a British university

UK high school education takes 4 years. During the first 2 years students study for **GCSE** exams and during the second 2 years they can either prepare for the **IB Diploma** or for **A-levels** - the qualifications which are the most common methods used to enter British universities. Instead of taking A Levels/IB Diploma, some students choose to enroll in a University Foundation Course- a one-year course during which students study subjects in a desired area.

Academic programmes

▪ **GCSE (14-16)**

This is the course for students who did not complete High School in their own country. Although GCSEs normally take two years, Newbury Hall has a fast stream one-year course. This level of achievement is made possible by the use of small classes and a personal tuition system.

▪ **A-level (16-19)**

The structure of the courses includes modular exams, course work and final examinations. Students who take A-Levels become familiar with British education before they go to university.

▪ **Junior Foundation course**

This course is for students aged 14+ who have completed middle school or junior high in their own country. This course leads directly onto the GCSE course and prepares students for it.
